PROFILE

Aspiring Front-End Developer with hands-on experience building clean, functional websites from concept through launch. Self-motivated and skilled in HTML, CSS, and JavaScript, with a strong ability to quickly learn new technologies and solve problems independently. Eager to apply my technical skills and collaborative mindset to a junior developer role, contributing to team projects while continuing to grow professionally

EXPERIENCE

The UK Army Cyber Security Project , Workshop Participant .

- Applied cryptography through hands-on coding and reverse-engineering (e.g., Caesar cipher, vulnerability assessments), strengthening the logical reasoning and systematic problem-solving skills used for debugging JavaScript, optimising performance, and securing web forms.
- Developed a security-first mindset and honed clear technical communication by collaborating with specialists in team decryption challenges, skills essential for agile development, code reviews, and protecting user data.

PROJECTS

SaaS Landing Page

Live Demo: <https://saas-landing-page-five-theta.vercel.app/>

GitHub: <https://github.com/dilonsejdija75/saas-landing-page>

- Built a responsive, conversion optimised landing page using HTML5, CSS3 Grid/Flexbox, and vanilla JavaScript

Villa Luxe Agency Website

Live Demo: <https://agency-website-alpha-five.vercel.app/>

GitHub: <https://github.com/dilonsejdija75/agency-website>

- Developed a modern real estate agency site with responsive navigation and image galleries
- Created custom CSS animations and implemented mobile first design principles
- Ensured cross browser compatibility and fast loading times

TECNICAL SKILLS

Languages: HTML5, CSS3, JavaScript

Concepts & Practices: Responsive Web Design, Mobile-First Development, Cross-Browser Compatibility, Web Performance Optimisation
